gupta.vaishnavi0505@gmail.com

linkedin.com/in/vaishnavigupta

github.com/vaishnxvii

Technical Skills

Languages: Python, Java, C, HTML/CSS, JavaScript, SQL, PostgreSQL

Machine Learning: NLTK, Scikit-learn, TensorFlow, Hugging Face, NumPy, Pandas, Seaborn

Data Visualization: Tableau, Power BI, Advanced Excel

Frameworks and Tools: VS Code, Github, Google Colab, Linux, Jenkins, Selenium, Docker, Django

Soft Skills: Critical thinking, Problem-solving, Team collaboration

Experience

Edunet Foundation

Aug 2023 – Sept 2023

Artificial Intelligence Intern

Remote

- Engineered a sentiment analysis model achieving 85% accuracy using Python and NLTK, and Machine Learning.
- Processed and analyzed 1000+ restaurant reviews for customer satisfaction insights.
- Delivered project on schedule while collaborating with instructors & remote team.

Indian Railways (R.D.S.O)

June 2023 – Aug 2023

Web Development Intern

Lucknow, U.P

- Developed a Django-based Task Planner Web Application, reducing task tracking time by 40%.
- Implemented user authentication system, securing access for 15+ team members.
- Collaborated with team members using version control systems such as Git to organize modifications and assign tasks.

Projects

Rainfall Prediction Model | Python, Scikit-learn

(View Project)

- Developed a machine learning model to predict rainfall with a high accuracy of 87.02%, outperforming other classification models like Random Forest and Logistic Regression.
- Evaluated multiple algorithms, including XGBoost and SVM, using classification metrics and ROC-AUC scores.

Salary Prediction Model | Python, Machine Learning

(View Project)

- Designed a machine learning regression model to predict salaries based on professional experience, achieving a notable 65.9% accuracy.
- Utilized a comprehensive ML workflow, including data cleaning, feature engineering, and training supervised learning models such as Linear Regression and Polynomial Regression.

The Bike Haven Analysis | Tableau

(View Project)

- Analyzed datasets to generate actionable insights into sales performance and customer purchasing behavior.
- Utilized SQL queries to clean and aggregate data, optimizing it for visualization.

IPL Auction Analysis | PostgreSQL

(View Project)

- Used SQL queries to analyze player performance and auction data, identifying key valuation factors.
- Used exploratory data analysis and regression plots to find correlations between player attributes and auction prices.

Fitbit Fitness Tracker Analysis | Excel Visualization

(View Project)

- This project demonstrates end-to-end data analysis in Excel, starting from raw dataset import, followed by multiple processing steps, and concluding with an interactive dashboard.
- Analyzed data and created KPIs using Excel formulas and pivot tables.

Certifications

- Data Science Placement Course** - Internshala (2024)
- Data Analysis Using Python** - IBM (2024)
- Programming with Python** - Samsung Innovation Campus (2024)
- Artificial Intelligence** - Samsung Innovation Campus (2023)

Education

Babasaheb Bhimrao Ambedkar University

Dec 2021 – June 2025

B.Tech in Computer Engineering, CGPA: 8.43/10

Lucknow, U.P
