Experience

Autellia Technology Pvt. Ltd.

April 2026 – Present

AI & RPA Automation Developer Intern

Remote

- Developed Python scripts and UiPath AI agents to automate business workflows, integrated external APIs, performed end-to-end testing and debugging, and supported deployment of automation solutions.
- Implemented backend functionalities and AI pipelines, including data processing, model integration, and API development for seamless system performance.
- Developed an AI Voice Healthcare Assistant MVP using Python, FastAPI, Groq LLM, Sarvam AI TTS, PostgreSQL, SQLAlchemy, Redis, enabling multilingual voice interactions, appointment management, and AI-powered healthcare assistance.

Edunet Foundation

Aug 2023 – Sept 2023

Artificial Intelligence Intern

Remote

- Engineered a sentiment analysis model achieving 85% accuracy using Python and NLTK, and Machine Learning.
- Processed and analyzed 1000+ restaurant reviews for customer satisfaction insights.
- Cleaned and refined 95% data, handled 10% missing values.

Indian Railways (R.D.S.O)

June 2023 – Aug 2023

Web Development Intern

Lucknow

- Developed a Django-based Task Planner Web Application using Python and Django Frameworks
- Implemented user authentication system, securing access for 15+ team members.
- Collaborated with team members using version control systems such as Git to organize modifications and assign tasks.

Technical Skills

Programming & Backend: Python, FastAPI, Django, REST APIs, SQL, PostgreSQL, SQLAlchemy

AI & Machine Learning: Scikit-learn, TensorFlow, Hugging Face, Groq API, LLM Integration, Prompt Engineering

Intelligent Automation: UiPath, AI Agents, Workflow Automation, Robotic Process Automation (RPA)

Tools & DevOps: Git/GitHub, Docker, Redis, Render, Linux, VS Code

Projects

Log Report Analysis Agent | UiPath Studio Web, Python, Generative AI

(View Project)

- Design and deployed an autonomous UiPath Cloud agent that triggers CSV production logs to analyze, process, and extract insights from enterprise log reports
- Integrated UiPath Agent Builder, defining custom agent bindings, resources, and execution triggers.

PCR Verification Agent | UiPath Studio, Automation, Python

(View Project)

- Engineered an automated warranty validation agent in UiPath Studio Web that parses, and validates Product Registration Codes (PRCs) across web form and email submissions using structured pattern matching.
- Implemented dynamic error-handling workflows to instantly notify customers of mistyped or incomplete codes with targeted correction instructions, eliminating manual triage and streamlining warranty activations.

AI Voice Healthcare Assistant | Python, FastAPI, Groq, PostgreSQL, Redis, Next.js

(View Project)

- Built a real-time voice healthcare assistant using FastAPI, Groq LLM, Whisper STT, and Sarvam AI TTS to facilitate low-latency multilingual patient interactions and appointment scheduling.
- Engineered scalable REST APIs integrated with PostgreSQL, SQLAlchemy, Redis caching, and Twilio for notifications, deploying the backend service on Render alongside a Next.js web application.

Certifications

- UiPath Academy Automation Developer Associate Training - UiPath (2026)
- Data Science Placement Course - Internshala (2024)
- Data Analysis Using Python - IBM (2024)
- Programming with Python - Samsung Innovation Campus (2024)
- Artificial Intelligence - Samsung Innovation Campus (2023)

Education

B.Tech in Computer Science Engineering

Dec 2021 – June 2025

BBAU (A Central University), CGPA: 7.69/10

Lucknow
